

High productivity Lower costs

Epson's latest A4 Replaceable Ink Pack System (RIPS) products offer exceptionally high ink yields, low Total Cost of Ownership (TCO) and a low environmental impact.

Print up to
50,000
pages in mono
and up to
20,000
pages in colour

Faster First Page
Out Time of
4.8
seconds¹ in
mono

Duplex scan
speed of
60ipm

Print speed ISO
up to
24ppm
34ppm max

Low running costs

Keep running costs low with the A4 RIPS series which offers exceptionally high ink yields. With fewer replacement parts, lowering servicing and intervention costs, benefit from a low TCO.

Improved productivity

With easy-to-change ink packs, the A4 RIPS series also boasts print speeds of up to 24ppm. It offers a paper capacity of up to 1,330 sheets and a fast First Page Out Time¹ of 4.8 seconds in mono or 5.3 seconds in colour.

High print quality

Epson's advanced PrecisionCore printhead technology has been developed to deliver vivid colours, less banding and faster print speeds for long runs, especially in Duplex.

Flexible integration

Compatible with a wide range of software solutions, such as Epson Print Admin, Document Capture Pro and Epson Device Admin, the A4 RIPS series helps you control, analyse and manage your fleet efficiently and securely.

High capacity ink packs

Low environmental impact

Improve business sustainability by keeping productivity high and environmental impact low. The high-yield ink cartridges hold more ink, meaning less waste from packaging and the clean technology inside Epson's RIPS devices produces no ozone gas and no toner dust.

This is the amount of cartridges and packaging waste required to print 2,100 pages (1,500 mono, 600 colour) per month over 5 years with a laser printer³.
